Notes

IMPORTANT INFORMATION/TERMS AND CONDITIONS.....Please Read.....

1: Acceptance

By Accepting Quote, you are Acknowledging you have Read, Understood and Agreed to all the IMPORTANT INFORMATION and CONDITIONS below.

2: Additional Accessories

When the Tray is fitted, will the Vehicle have any Accessories Fitted? Or, do you plan to fit any in the Future?

We are Aware that some Accessories may Interfere with the Normal Fitting of the Tray. Sometimes, we can make Minor Changes to the Tray, and Other Times it just won't work!

Description	Color	Price Ex GST	Fitting Ex GST
-------------	-------	-----------------	-------------------

Please Advise if you have Fitted, or plan to fit any of the Following:

- * Larger Diameter Tyres
- * Offset Wheels
- * Side Steps/Scrub Rails
- * Long Range/Aftermarket Fuel Tank
- * Modified Exhaust
- * Roof Racks
- * Canopy (Fitted to "Tub") – As Extra Time will need to be Allowed if a Tub Removal is Required.
- * Auxillary Wiring (Worklights, Lightbar, Anderson Plugs, etc)
- * Any other Accessory which you think MAY cause Interference

If we are made aware of these things from the start, we can advise any known issues or discuss the Options. None of the above are automatically "Dealbreakers", they may just require additional time during fitting. If additional fitting is require is it charged at \$50+ GST per/15 mins, and is payable to the Fitting Agent.

3: Tray Weight and Suspension Upgrades

Please Consider if a Suspension upgrade is Recommended/Required for your Vehicle. Adding a Tray/Canopy with Accessories may Affect your Vehicles Weight Distribution and Handling. Included in this Quote, is a Weight Total. Work with a Suspension Specialist to Determine if a Suspension Upgrade is Required.

4: LED Tail Lights

Bronco uses only the Highest Quality LED Tail Lights, which are backed with a 7 Year replacement Warranty. The Lights Fitted are AFTERMARKET, and hence were not intended to suit the Vehicle. Bronco Accepts **NO** Responsibility for how these Aftermarket Tail Lights MAY Affect your Vehicle. This includes any Faults Arising Directly or Indirectly Caused by the LED Tail Lights.

5: Tubs

If your Vehicle Requires “Tub” Removal, you will need to Organise Disposal of this Tub. If keeping, the best is to bring 4 or 5 x Standard Size Wooden Pallets. The Tub Can be lifted onto these Pallets, then Loaded onto the back of the New Tray. If the New Tray is Fitted with a “Canopy Top Frame” or "Canopy", it will not be Possible to Load Tub onto Tray. In this Case, Please Organise a Trailer/Truck or some Other Method to Remove Tub. If “Tub” can Not be Taken by Customer, a Disposal fee is \$150 inc. GST. If fitting is done on site at/by a Dealership, please liaise with Dealership regarding Tub Disposal.

6: Freight & Packaging

If freight is required, it is done by the Bronco trucks within a 5hr radius of our Bathurst factory. If further shipping is required, it will be sent on general freight. The likelihood of freight damage occuring is much higher when sent on general freight. Bronco products are packed with care, in packaging which is suitable for interstate shipping. Whilst all care is Taken, BRONCO hold NO RESPONSIBILITY for damage incurred during transport. Freight cover is available at an extra cost - please inquire.

7: Conditions

When Ordering “AS PER QUOTE”, ONUS is on Person Ordering to Ensure ALL Quote details are Correct. We accept NO RESPONSIBILITY for Errors in Quote after Order has been Placed. All Quotations are Valid for 14 DAYS Unless Otherwise Approved. Terms are \$1,000 Deposit, Unless Otherwise Stated. NB: Balance must be PAID PRIOR to Items Being Dispatched or Picked up, Unless Otherwise Stated.. Whilst all care is Taken, BRONCO hold NO RESPONSIBILITY for Vehicles and/or Customer Property held by Request. NO Responsibility Accepted for Storage of “Tub”.

8: Design Changes

Bronco is a dynamic market leader and is constantly making changes. All product and product specifications are subject to change without notice to improve function, design, reliability or otherwise. If you have questions regarding changes (compared to previous iterations), please contact us.

9: Raw Alloy -Tool Markings and Minor Scratches

Many Bronco products are also available in raw alloy, i.e. not powder coated or painted. As such, the raw alloy will show tooling markings/scratches form the manufacturing process. While all care is taken, many of these marks are unavoidable. This is expected with alloy, as it is relatively soft. If this is an issue for you, we suggest going with a powder coated or painted finish instead.

10: Cancellations

If job is Cancelled after 7 DAYS from Order date, Deposit is NON-REFUNDABLE. We have a NOREFUND POLICY on CUSTOM or SPECIAL ORDERS.
